

Jennifer Webb is delighted to be here today. As a people engager, she has saved companies millions by helping employees stay engaged and regain their passion, energy and purpose. Author of three books on human potential, she has an undergraduate and graduate degree in psychology, a master certification in NLP (Neuro-Linguistic Programming) and began her company, Magic Communications, in Manhattan 23 years ago. She has had the good fortune to work with many organizations like NASA, Apple, Microsoft, the CIA, the Navy, the Air Force and Ernst & Young, and has been a member of the prestigious National Speaker's Association for more than 25 years. Jennifer has spoken in every state except North Dakota and Hawaii, hopes to add those to her list sometime soon, and is a big believer in short introductions.

Please join me in welcoming Jennifer Webb!
